

Friedman & his Memoranda: Symposium
 pt. A. 238 no 2 (1978) 126-147.

cf.

Fermion, Boson are 2 'dots' of
 a superparticle as in case of nucleon.
 product of 2 separate transmuters = Poincaré
 transformation.

fermion families, a kind of superforce
 superparticle has mass, which relates to mass.
 a proton, a neutron, a photon, a gluon,
 or on.

Quits her ch. 11 word 3. Ep. 51 Paul to the Hebrews

1. Though faith is understood as the
works are framed by the word of God;
so that things which are seen, were not
made of things which do appear.
